

Staying Safe in School

Additional Information

We have been asked, by Government, to play a significant role in the management of the Coronavirus outbreak; to stay open for pupils of key workers and the most vulnerable of our young people. This role needs to be balanced with the need for us all to keep safe and not spread the virus further including to our own loved ones. The following information is not exhaustive it is provided to supplement government guidance and support us all.

Hygiene guidance

Coming into school

- Wash hands when leaving home (soap and water for at least 20 seconds)
- Wash hands when entering school
- Sign in using the signing in sheets in either upper or lower school

Whilst in school

- Model and be explicit to our young people all of the following (e.g. verbalising 'I am washing my hands again now to help me stay safe')
- Maintain social distancing as much as possible whilst supporting our young people
- Wash hands regularly, avoid touching your face
- Ensure young people wash hands regularly and encourage them not to touch their face
- Catch coughs and sneezes in tissues bin them and wash hands
- Use disinfectant wipes to clean frequently touched areas or items
- Limit the rooms used in school to a minimum. If you need to and use a room within the school remove the cleaned room sign so that the cleaning team know that it needs to be cleaned.

Leaving school

- Wash hands before leaving the building
- Sign out using the signing in sheets in either upper or lower school
- Clean hands using sanitiser after signing out and before entering your car

Arriving home

- Wash hands as soon as possible
