

Parent Feedback/Further Comments from Parent Questionnaire Dec 23

Every year we put together a questionnaire for parents and carers of our students. This is to give them a chance to put forward what they feel about how we are doing as a school looking after the education and wellbeing of their children. To date we have had 42 responses -which is an increase on the 17 we had the last time- and the information collected is as follows:

Comparison from the Parent Survey in 2022 to 2023

In 2022 we sent our Parent Survey to all our parents and received 17 responses in total. This year we sent it out again and received 42 responses – a huge increase of parents willing to share their views. As you can see from the information below on a few key questions, there is a fantastic increase in not only parents perceived happiness for their child, the safety of their child and also the willingness to recommend.
